

ENGINEER ICE CREAM

AN MIU IV SUMMER ENGINEERING CAMP

FOOD FOR THOUGHT: ENGINEERING ICE CREAM!

Engineer your child's summer! Introducing the MIU IV Engineering Camp Series:

- Growing Up: Engineering Vertical Farms June 28-29
- Camp Invention July 10-13
- Food for Thought: Engineering Ice Cream July 17-18

The Engineering Everywhere camps engage kids in activities that are fun, exciting and connect to the world in which they live. As kids work through their engineering design challenges, they will have the opportunity to build their problem solving, teamwork, communication, and creative thinking skills. This camp is designed to impact 6th-8th graders' attitudes about their abilities to engineer.

Kids will learn about engineering, technology, and process while creating ice cream and its packaging.

FOOD FOR THOUGHT: ENGINEERING ICE CREAM

WHEN
MONDAY, JULY 17TH, 9AM TO
TUESDAY, JULY 18TH, 4PM

WHERE
453 MAPLE STREET
GROVE CITY, PA
