

ENGINEERING VERTICAL FARMS

AN MIU IV SUMMER ENGINEERING CAMP

GROWING UP: ENGINEERING VERTICAL FARMS!

Engineer your child's summer! Introducing the MIU IV Engineering Camp Series:

- Growing Up: Engineering Vertical Farms June 28-29
- Camp Invention July 10-13
- Food for Thought: Engineering Ice Cream July 17-18

The Engineering Everywhere camps engage kids in activities that are fun, exciting and connect to the world in which they live. As kids work through their engineering design challenges, they will have the opportunity to build their problem solving, teamwork, communication, and creative thinking skills. This camp is designed to impact 6th-8th graders' attitudes about their abilities to engineer.

This camp will introduce kids to engineering and technology through the design of watering and lighting systems necessary to create and sustain the Vertical Farm!

GROWING UP: ENGINEERING VERTICAL FARMS

WHEN

**WEDNESDAY, JUNE 28TH, 9AM TO
THURSDAY, JUNE 29TH, 4PM**

WHERE

**453 MAPLE STREET
GROVE CITY, PA**

MORE INFORMATION
